## MEMORANDUM OF UNDERSTANDING SIGNING CEREMONY

Recently, we have been working with the Navy Dockyard where the parties have agreed to collaborate in manufacturing medical equipment and devices, research and development, and construction in government and non-government development projects, as well as requirements from the private sector that we can reasonably satisfy. The ceremonial exchanged of the Memorandum of Understanding (MoU), between Ms. Mousumi Islam, Managing Director, PROMIXCO GROUP, and Commodore Abdullah Al Maksud, Managing Director, Dockeyard & Engineering Works Ltd is presented in the photograph below.

Another milestone achievement was where PROMIXCO and Bangladesh Industrial and Technical Assistance Centre (BITAC) agreed to cooperate for research on Medical Devices focusing on local demand and priority. Further, both will work on projects under the Fourth Industrial Revolution (4IR) initiatives of the Bangladesh Government. Driven by rapid changes to technology, industries, and societal patterns and processes in the 21st century due to increasing interconnectivity and intelligent automation. There will be ancillary collaboration with the Pilot Project on Medical Robotics and Artificial Intelligence. The focus is on various classes of medical devices & equipment development and manufacturing with the slogan "Made-in-Bangladesh".

We take corporate social responsibility (CSR) seriously and work each year in conjunction with Government at a national level. Last month, we distributed winter blankets to the extremely poor living around and in the PROMIXCO Industrial Park in Gazipur. The Managing Director, Ms. Mousumi Islam of PROMIXCO GROUP, was present at the ceremony.

## PROMIXCO Leading in Healthcare

PROMIXCO Group is a leading manufacturer in various sectors, particularly in the Healthcare sector. Its foremost involvement is in the manufacturer Medical Devices in Bangladesh. Our operations include production of Hospital Furniture, Disposable Items, Office Furniture, School Furniture, Pharmaceuticals, and Holding Construction.

We started our journey 23 years ago. Now PROMIXCO is a group of companies with ten sister concerns. Our factory is of international standard and reputation and has CE, ISO, FSC, BCSIR, DGDA, and GMP certifications. Over time we have expanded our range of activities in the healthcare sector, the latest being in the manufacturing of medical devices. We are the leading participate and prime mover in this virgin field. Through this unique initiative, we have produced import substitute equipment and devices, contribution to our national savings.

We are determined to manufacturer and supply quality medical devices at the lowest cost so that hospitals and diagnostic centers can purchase the devices at an affordable price and thereby reduce the cost of different tests. Not only are we catering to the demands of local markets, but we have also started exporting globally and contributing towards foreign currency earnings.

We are fully committed to attaining the goals of the government to have a flourishing and developed Bangladesh. In this regard, Government may provide support to this new industry through fiscal, monetary and policy measures.

We have been active in humanitarian activities during the Covid-19 Pandemic braving the fear of death and supplying, free-of-cost, safety gear and products that are deterrents to Covid-19 to government, semi-government, and non-government organizations.

We strive to be good corporate citizens and practice good corporate governance. We value our customers and stakeholders. We have state-of-the-art manufacturing facilities and ensure the safety of workers, workplace, and environment. We believe in teamwork and prioritize employee interest and well-being over ownership interests. We honor our bankers and partners and engage in different social activities. We became a symbol of trust through our combined endeavors.
